Santoro Giulio Anniello	Treviso (Italy)
Váňa Juraj	Žilina (Slovak republic)
Vrzgula Andrej	Košice (Slovak republic)

Friday, November 29th, 2024 Nitra

Vážené kolegyně a kolegovia

Som veľmi rád, že Vás môžem pozvať a verím, že aj neskôr privítať v starobylej Nitre na tradičnom chirurgickom odbornom podujatí. Som presvedčený že tradičný Koloproktologický deň Vás osloví svojim odborným programom.

V proktologickej časti nášho podujatia sa pokúsime presvedčiť všetkých chirurgov ktorý sa venujú proktológii, že proktológia je doslova vedný odbor s možnosťou trvale vyriešiť proktologické komplikácie pacientov s IBD, za predpokladu výbornej znalosti anatómie, konzervatívnej a na „mieru šitej“ chirurgickej terapie.

Jedným z cieľov nášho podujatia je ponúknuť komplexný pohľad na konzervatívnu a chirurgickú terapiu IBD. Medziodborová spolupráca v komplexnej diagnostike a terapii IBD je v súčasnosti conditio sine qua non.

V dennej klinickej praxi sa presviedčame, že chirurg bez gastroenterológa a gastroenterológ bez chirurga so špeciálnymi vedomosťami v chirurgickej terapii tejto skupiny pacientov nemôžu relevantne pacienta liečiť. Spoločné konzultácie musia viesť ku vytvoreniu správneho terapeutického postupu a správneho časovania zodpovedajúcej terapie. Pokúsili sme sa vytvoriť spoločné fórum gastroentero-chirurgické a veríme, že získame predpoklady pre kvalitnú medziodborovú spoluprácu.

Som presvedčený, že pozvaní renomovaní prednášatelia zo zahraničia obohatia naše vedomosti o ich vlastné dlhoročné skúsenosti z klinickej praxe.

Nitra je veľmi úzko spätá s historickým vývojom Slovanov na území dnešného Slovenska. Cyrilo-Methodská tradícia bude na Vás dýchať na každom kroku a vynovená bazilika sv. Emeráma na Nitrianskom hrade Vás nadchne svojou nádhernou výzdobou a architektúrou.

Príďte načerpať nové vedomosti, spoznajte nových kolegov a nadýchajte sa atmosféry starobylej Nitry a jej krásneho okolia.

Doc. MUDr. Jozef Korček PhD.mim. Prof. FASCRS
predseda Koloproktologickej sekcie SCHS

Friday, November 29th, 2024 Nitra

Dear colleagues

I am very happy that I can invite you and I believe that I will welcome you in ancient Nitra at a traditional surgical professional event. I am convinced that the traditional Coloproctology Day will appeal to you with its professional program.

In the proctology part of our event, we will try to convince all surgeons who work in proctology that proctology is literally a scientific field with the possibility of permanently solving proctological complications of patients with IBD, provided they have an excellent knowledge of anatomy, conservative and "tailored" surgical therapy.

One of the goals of our event is to offer a comprehensive view of conservative and surgical IBD therapy. Interprofessional cooperation in the complex diagnosis and therapy of IBD is currently a *conditio sine qua non*.

In daily clinical practice, we are convinced that a surgeon without a gastroenterologist and a gastroenterologist without a surgeon with special knowledge in the surgical therapy of this group of patients cannot treat the patient relevantly. Joint consultations must lead to the creation of the correct therapeutic procedure and the correct timing of the corresponding therapy. We tried to create a joint gastroentero-surgical forum and we believe that we will get the prerequisites for high-quality interprofessional cooperation.

I am convinced that the invited renowned lecturers from abroad will enrich our knowledge with their own long-term experience from clinical practice.

Nitra is very closely connected with the historical development of the Slavs in today's Slovakia. The Cyril-Methodist tradition will breathe on you at every step, and the renovated basilica of St. Emeram at Nitra Castle will delight you with its beautiful decoration and architecture.

Come to gain new knowledge, meet new colleagues and breathe in the atmosphere of ancient Nitra and its beautiful surroundings.

Assoc Prof. Jozef Korček, M.D., PhD. Extraordinary Prof., FASCRS

Chairman Coloproctological Section of the Slovak Surgical Society
